LOCAL MANUFACTURER WINS “BEST OF SHOW” PRIZE

An innovative inventory management system earned the “Best of Show” prize for C.R. Barger & Sons, Inc., a precast concrete manufacturer in Harriman, Tenn., in a national competition sponsored by the National Precast Concrete Association (NPCA).

Held in Orlando, Fla., during the NPCA Winter Conference, the Pinnacle Awards competition presents the leading innovations, inventions and ideas from throughout the precast concrete industry in a juried format.

The Barger entry, “Precast-IT!™,” was the highest scoring entry of the Show. Precast-IT!™ is an inventory management system designed to track a product from design and manufacturing through delivery and installation. C.R. Barger & Sons (www.BargerAndSons.com) manufactures a variety of precast products such as septic tanks, storm shelters, grease separators, stepping stones, water storage tanks and custom products.

Founded in 1965, NPCA is an international trade association that represents the precast concrete products industry. The association serves more than 1,000 members in all 50 states, 12 Canadian provinces and several other countries throughout the world.
